Re: 21 U.S.C. Section 343(r)(6), Notification of Statements on Dietary Supplements

Dear Sir/Madam:

I hereby notify the Food and Drug Administration ("FDA") of the use of statements of nutritional support in the labeling of Graviola, 500 mg Caps, a dietary supplement.

Statements being made in the labeling of Graviola:

- (1) Graviola tree (*Annona muricata*), also known as soursop, is found in the Amazon jungle and some of the Caribbean islands. Graviola tree leaves have been used traditionally for their various therapeutic properties. More recent scientific studies suggest that Acetogenins, the active constituents of Graviola, can support healthy cell growth and function. In addition, Graviola has been used for its whole body calming effects and as a supplement to help maintain a positive mood.
- (2) Supports Immune Function
- (3) Positive Mood State

To the best of my knowledge, and based upon information and belief present at the time of the executing of this notice, I certify that the above information is accurate and complete. NOW Foods possesses substantiation that the statements are truthful and not misleading.
